

Trueheat is an Australian designed brand of commercial cooking equipment. Constructed from stainless steel with a Type 4 matt finish.

This 20L tube fryer with stainless steel frypot, front, door, backplash/flue cover and aluminised sides, makes the most of your energy dollars with the exclusive Thermo-Tube design. The 3 heating tubes provide a large oil contact surface for the frying area of 350mm x 350mm. Flow-tube baffles control the transfer of heat into the oil. A wide cold zone frypot protects oil integrity by trapping debris under the cooking area, preventing carbonization of particles and wasteful oil deterioration. Front rail matches with Trueheat ranges.

#### STANDARD FEATURES

- Mechanical snap-action thermostat
- Millivolt control system - requires no electrical hookup
- Wire form basket hanger and two fry baskets
- 150 mm adjustable steel legs

#### OPTIONAL FEATURES

- Castors
- Frypot cover
- Flexible gas hose with quick disconnect and restraining kit
